**TEXT 2:**

Tidiness instead of cable salad: cable tie mounts self-adhesive with touch fastener

Cable clips self-adhesive with touch fastener (self-adhesive) for unobtrusively and reliably guiding and fastening cords on walls, ceilings, furniture or on the floor, ideal for home, office and workshop. LTC WALL STRAPS cable clamp takes up to 4 cables, opening and closing the cable holder is easy and can be performed over and over again. Due to the soft material of the cable system, the self-adhesive binders (similar to cable drops, cable hooks or cable grips) are also suitable for sensitive types of cable such as optic fibre.

The cable mounting is ideally suited for securely fastening and routing desk cables that are frequently disconnected from their end devices (e.g. laptop charger, USB cable, computer cable etc) Extra strong adhesive attaches to almost any clean surface. All surfaces must be thoroughly clean, dry, free of dust and as smooth as possible for optimal adhesiveness. Tiles, glass and car dashboards must be cleaned with suitable cleaner before the binder material is attached. LTC WALL STRAPS can be removed without leaving any residue. LTC WALL STRAPS (cable ties self-adhesive with touch fastener) is available in black and white.
