SAT Coaxial Cable (110 dB)

This SCHWAIGER® coaxial cable is suitable for higher requirements with satellite and cable TV systems. The 110 dB shielding provides best possible protection against electromagnetic signal interference. In addition, the cable structure makes for very

low signal attenuation. The cable can be shortened as desired and can be equipped with corresponding F connectors. SCHWAIGER® offers a suitable stripping tool.

EN 50575: 2014 + A1: 2016

Koaxialkabel zur Signalübertragung
Coax cable for data transmission

18 N° 18001

Brandverhalten/Fire behavior: Klasse E_{ca}

FEATURES (KOX820 012)

- shielded three times for additional protection against electromagnetic interference
- high shielding value is guaranteed
- high density and very good shielding efficiency
- Passender F-Stecker: Ø 7 mm (Schwaiger FSTHD 7002)
- content: 1 x coaxial cable

TECHNICAL DATA

Quality	ULTIMATE	Shielding material	aluminium composite film/84-wire aluminium braid/aluminium composite film
Impedance	75 Ohm	Inner conductor	CU
Cable design	1.02 mm (inner conductor) 4.5 mm (dielectric) 7.1 mm (sheath)	Cable length	20 m
Shielding	shielded 3 times	Material of product	plastic
Shielding value	110 dB	Classification	class A
Attenuation on 100 m	5 dB up to 50 MHz 6 dB up to 100 MHz 14 dB up to 470 MHz 20 dB up to 860 MHz 21 dB up to 950 MHz 29 dB up to 1750 MHz 33 dB up to 2150 MHz	Colour	white
		Packaging	carton
